

mccsolutions.ca

a division of 4pairless communications INC.

mccsolutions.ca is a wireless internet service provider that is bridging the gap with it's high speed wireless internet.

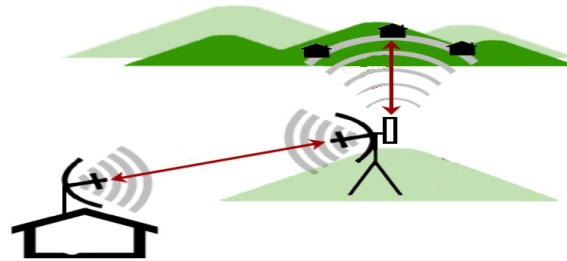

We are bridging the gap

We are located in Dwight and have been building our wireless infrastructure for over four years, we continue to move out into areas where

other wireless signals cannot go. With such beautiful hills and valleys in Lake of bay's it makes other wireless signals "weak". Over the last four years our wireless network is stronger and faster and reaching places where no other signals will go.

- On-site customer support for all your computer and networking needs.
- Reasonable on-site rates — pickup and drop off — for computer problems that require much more time.
- Sales and service computers, printers, laptops, networks
- IP security cameras and camera security systems, PVR systems >> wide range of prices for a solution that is right for you
